

Network protection tailored to you

Now, more than ever your high-value media content needs protection. In an industry where security is fundamental to success and its failure catastrophic, it is essential to have the highest level of defence to protect your company and its assets.

Sohonet has been securing high-value media content for our customers for over 25 years. We have a wide range of advanced managed security services available, which have been specifically tailored to meet the unique requirements of our media customers.

SECURE YOUR CONTENT

Whatever you're working on, ensure no-one outside your team has access to your content.

24/7 MONITORING

Your network never stops, so we monitor your network 24/7 for your peace of mind.

CONSTANT UPDATES

As your vendors combat evolving threats with patches and updates, we evaluate changes and deploy them swiftly.

FULLY-MANAGED FIREWALLS

We configure and manage your firewalls, deploying updates using the best hardware available, including next-gen firewalls with advanced Layer 7 protection. As part of our fully-managed firewall service, we also provide constant monitoring and hourly backups of your firewall configurations, and a complete revision history.

FULLY-MANAGED VPNs

We accommodate your individual security procedures and help you get your remote teams in securely. We're equipped to configure SSL VPN's and IPSEC VPN's (either hardware or software-based) to work smoothly with your network's devices, firewalls and security protocols.

FEATURES

Flexible

We tailor solutions to your size, budget and needs, leveraging relationships with our key vendors: Fortinet, Juniper and Palo Alto.

High performance

We work with you to ensure that both your network performance and security are optimized together for best results

Scalable

Add or upgrade devices as you need them, and change configurations as your security needs

Tailored to you

Options for Universal Threat Management, Intrusion Detection or Intrusion Prevention, advanced analytics, VPN, network anti-virus, URL or data-filtering.

Flexible pricing

Short- and long-term services available to get the best value option for you.

Expert advice

We offer expert advice 24/7 on security best-practice and use a carefully-curated selection of equipment from leading vendors
