clearview flex

ClearView Flex enables an 'over-the-shoulder' shared viewing experience – wherever your collaborators may be. Stream live, encrypted video in real-time from any source to your team members or clients enabling them to review content from anywhere on their tablet, phone, PC/ MAC or via Apple TV. ClearView Flex has received both an Engineering Emmy® for Advancing Remote Collaboration and an Honourable Mention from the HPA Awards and is part of Sohonet's ClearView product family -- our real-time, remote collaboration toolkit for M&E teams.

FEATURES

High-quality streaming
Flex supports content of up to 2K DCI resolution with up to 4:2:0 (10-bit) colour.

Ultra-low latency
Collaborate at the speed of light plus 2-5 frames of delay (lag that's so small it's barely noticeable to humans).

Flexible pricing
Pay-as-you-go pricing options, so you can align costs to projects on a weekly or monthly basis

Surround Sound
Now with, 5.1 support for Apple TV, viewers can review full surround sound audio.

Minimal bandwith
Flex requires minimal bandwidth - streams can be viewed on any internet connected device

Multi-device support
Stream to up to 30 devices. Streams can be viewed on tablet, phone, PC/MAC or through Apple TV

Simple to use
User-friendly interfaces for both viewers and presenters

Studio-grade security
Flex has built-in security including encrypted video streaming, session burn-ins, and secure invite links.

SIMPLE TO USE

1: We'll send you a Flexbox
2: Connect creative workstation/ camera via SDI or HDMI to the Flexbox
3: Log in to the Clearview Flex webpage and name your session
4: Invite viewers by email to join a session
5: Viewers click secure link to view live encypted session via any device
   (phone/tablet/PC/MAC/ via Apple TV)
6: Team/ clients collaborate in real-time, securely.
